

BASELINE[®] 2017

WE HELP YOU MAKE IT.

Available at no
cost to US Foods[®]
customers

Baseline[®] is the most comprehensive, market-proven financial diagnostic tool in the healthcare industry today. It isolates the metrics of your entire foodservice operation and provides key information to identify opportunities, set goals and plan cost management strategies.

BASELINE PROVIDES:

- **Comprehensive annual analysis and assessment** of foodservice operations for individual facilities and integrated health systems
 - **A roadmap to a stronger fiscal future.** Baseline exposes hidden costs and identifies specific cost-saving opportunities.
 - **Over 50 new metrics** to measure your financial performance and opportunities
-

How does it work?

Our mission is to help you drive excellence in your food and nutrition department, and our goal, as is yours, is to improve your department's bottom line.

Baseline® is the first step in outlining and understanding operational opportunities. Our dedicated team will work with you to gather all of the information needed to produce a comprehensive financial analysis of your department. We will help you interpret the data and create an action plan. With that plan, you'll be better able to implement strategies, such as cost savings, revenue growth and productivity enhancements that drive operational success.

Gain actionable information

Baseline explores every aspect of your foodservice operation and delivers clear, well-organized financial data in a comprehensive, professionally bound executive report. These results are the first crucial steps in developing an action plan that will help you manage costs more effectively.

The areas we analyze include:

- Raw food costs
- Labor productivity
- Food and supplies
- Floor stock
- Catering
- Cost per patient in-patient day
- Cost with observation days included
- Network reports
- Retail operations
