## ICED LATTE CONCENTRATE

A robust blend of quality and simplicity, our iced latte turns every operator into an instant barista. Made from 100% Arabica beans sourced from Brazil and Africa, each batch is roasted for this product just a week before bottling. We've also removed the labor hassles associated with other premium iced coffees: Add one bottle of our concentrate to a half gallon pitcher and fill with water, yielding 8, 8 fl oz. servings. Try it with other flavors or add to any dessert that would benefit from a delicious mocha rush.
