Product Inspiration

Napa Cabbage has been a staple in China, Korea and Japan for centuries. It's the basis for Kimchi, the fermented cabbage creation that's the national dish of Korea. Healthwise, it's a winner: bursting with vitamins A and C, loaded with fiber and rich in antioxidants. Consider the unique flavor and cross-cuisine versatility and you'll see why today it's a favorite here in the U.S.A.

Square-cut (1" x 1"), this cabbage delivers great plate coverage, holds dressing beautifully and prevents rapid wilting. Shredded carrots and red cabbage are included in separate bags for additional crunch and color in salads or coleslaw. All are pre-washed and cut to order to maximize freshness and shelf-life.
